

## Price Revisions for Our Driver Products

We would like to thank you for your continued support.

In the face of the current high prices of raw materials and parts, rising transportation and human resource costs, and the sharp depreciation of the yen, we have been making efforts to improve productivity and reduce costs, but it has become difficult to maintain a stable supply and quality at the current prices.

Therefore, we regret to inform you that we will be revising our prices starting with orders received in September 2022.

We would appreciate your kind understanding and cooperation in this matter.

- Products Covered 5-phase stepping motor drivers
  - Rate of Revision : 15%
  - Effective from orders received on September 1, 2022
- \*The above revision rate is different for some products.
