

Price revision announcement for our stepping motor products

We are glad to hear that your company is enjoying continued success and prosperity.
We would like to take this opportunity to thank you for your continued patronage.

In response to the effects of the recent rapid price inflation of raw materials and parts, rising transportation and manpower costs, and the drastic depreciation of the yen, we have been making efforts to improve productivity and reduce costs, but it has become difficult to maintain a stable supply and quality at the current price rates. Therefore, we regret to inform you that we will revise our prices as follows, effective from orders placed in June 2023.

- models 5-phase stepping motor

- Revision rate 15%
 *Please note that the revised rate may differ in some cases

- Schedule From June 1, 2023 for orders received

We apologize for any inconvenience this may cause and sincerely appreciate your understanding.
